Westchester.

PHYSICAL ADVANTAGES.—The situation is very elevased commanding a prospect of thirty mitter, and is remarkabit for healthness and beauty of scenery. Its alguntages over
a city location are very obvious and important. here," says
a parsat, "the cheeks acquire a bloom and the frame a vigor."
No case of serious illuess has ever socured, and every profit
reshout exception, has improved in health. The grounds and
attentive lawn, advened with walks, arbors, shubbery and
inade trees, afford a wide range for unrestrained exercise; the
nearthin air and fine scenery impart cheerfulness of spirits.
The retirement secures the profile from unfavorable influences,
and the limited nomber and family character of the school
afford them the many comforts and advantages of a quiet Chris
ian home.

DOOKKEEPING, &c.—"FOSTER, DIXON & Co. have opened on Institution at No. 346 Broadway, which will confer incalculable benefits upon the mercantile community. Instruction in WRITING, ARITIMETIC and BOOKKEEP-ING is afforded by them in the most substantial, practical and appelicious manner. Never before in one establishment was so much ability united for the purposes of teaching. Mr. DIXON is the most accomplished Fer man we ever saw. The other generated the firm are favorably known, and their extensive acceptable.

practical and useful education; adding every pleasing accomplishment.

No location can be more saftable for the purposes contemplated than the Gity of Poughheepele—a town surpassed by none
in beauty of situation, salubrity of climate, and the intelligence
and refinement of its citizens.

Especial attention is given to the health of the pupils. The
agencies relied on ser, exercise in the open air; a liberal use of
water, cold and tepid; an abundant supply of wholesome food;
and perfect system, order and punctuality in all School and
Family duties. In addition to daily walks among the beautiful
cavirous of Poughkeepsic, and recreation in the play-grounds of
the Sembary, Gymmastic and Calashands exercises are requisity
pacticed under the direction of the Teachers.
Bearders are never permitted to visit confectionery saleons.
The next Academic Year will commence on the 22d of Septamber. There will be a recess during the Holidays.

Pupile may enter for one Quarter only; all bits for such being

GAS-HEATERS or NURSE LAMPS.—

W. F. SHAW'S PATENT, Boston, Mass.

75 cents each, at retail.

Atmospheric Air and Huministing Gas used as fuel, to secure a ready means of heating a small quantity of water; one pint will boil in five minutes. Place the Heater over any bat-wing or fish tail gas-burner, the air flows in at the bottom, and comingles with the gas; ignite this on the too of the gauge smi face, and you produce intense heat and blue flame which is surrounded by a finely perforated tin cyclinder, by which the flame and products of combustion are supplied with atmospheric air at a very high temperature, necessary for a complete chemical union or perfect combustion of the mixed gase. Without this surrounding perforated metal, they form not only noxions clore, but those deadly poisons, forme acid and ablebyde. As the appravatus is constructed by me, the most sensitive tests cautest detect their treestor. In communications from Prof. A. Hayse, J. M. Wightman, seq. and other scientific gentleman, the absence is attributed wholly to surrounding the wire gauge surface with perforated metal. Inguire for SHAW'S PATENT GAS-HEATER. My mane, and date of Patent, is stamped on each one. For sale, at wholesate and retail, by

CREAT SALE at KILBURN CITY, in Columbia County, State of Wisconsin. There will be offered at public Sale, by the proprieters, on MONDAT, August 18, 1886, and during the entire week, ONE THOWSAND to TWO THOUSAND CITY LOTS, situated in different parts of the plat, suitable for basiness and residences.

Will be made easy, by a small emount in hand, and the remainder on long time, with a low rate of interest and a liberal discount to all persons who shall make valuable improvements within, year from the time of personase, or to those who may prefer to pay in hard.

RELBURN CUTY

Is situated on the Wisconsia River, immediately below that remantle spot known as THE DELLS, and in the midst of a rich egricultural country, and of the boldest and finest scenery in Wisconsin. The site of the cly itself is beautiful and healthy in the extreme, being an elevated plain, rising smoothly and evenly from a blood elevation of 80 feet above the river, which flows around its usersers boundary, to an elevation of about 250 feet, where it meets the table land at its carters boundary, two milge distant from the river.

At this point the LA CROSSE and MILWAUKEE RAIL-ROAD crosses the Wisconsin River, affording easy communication between the eastern and western portions of the State and the coentry beyond.

Also, at this point one of the largest water-powers in the State is in process of being erected, by the Wisconsin River. Hydraulic Company, under a charter granted by the State. The Wisconsin is the largest triver in the State; and this water-power will be the lawest down on the river of any that can be improved, thereby giving to it peculiar advantages, which will speedily invite the stretch of MILLS and MANUFACTORIES of every description.

Prest of the Wisconsin River Hydraulic Co.

Riibarn City, July 1, 1956.

THE valuable Manufacturing Property in the Borough of STAMFORD, Conn., known as the RIPPOWAM WORRS, will be SOLD at public anction on the premiers, on the Sist of July. It has soen occupied as a Foundary, and is suitable for Paper making or other manufacturing purposes. It has a fine Water Power, and is convenient to steamboat and rairoad. It will probably be sold at a parent. The terms made casy.
